DR. LIEBIG 400 Geary Street, San Francisco, Cal.

CONTINUES TO TREAT successfully by Homeopathy every form of Special or Chronic Disease without Mercury or Nauseous Drugs. DR. LIEBIG'S Invigorator is a positive and permanent cure for Seminal Weakness, Nervous and Physical Debility, Lost Manhood, Vital Exhaustion, and all the terrible results of abused nature, excesses and youthful follies. The Doctor will agree in writing to forfeit $1,000 for a case that he undertakes and fails to cure. The reason thousands can not get cured of Seminal Weakness and the above diseases is owing to a complication called Prostatorrhea, which requires a special remedy. DR. LIEBIG'S INVIGORATOR, No. 2, is a Special Cure for Prostatorrhea. Price of either Invigorator, $3 per bottle, or 6 bottles for $10. Sent to any address securely covered from observation. Seminal Weakness and Prostatorrhea drain vitality from the body and cause numerous diseases that baffle ordinary medical treatment. If allowed to continue, the unnatural loss affects the vital organs, which causes destroying diseases. Consumption, Diabetes, Bright's Disease, Jaundice Insanity, etc. Excesses, Non-use, Abuse, Inherited Weakness, Malnutrition, Spinal and Celebral Complaints bring in the above fatal diseases. Debility and Seminal Weakness obstruct the important and necessary acts of life and their enjoyments. Cures Guaranteed. Diseases of the Genito-urinary Organs, Kidney, Liver and Bladder a specialty. The many complaints and disease of women speedily cured; consultation at office for by letter, free and confidential.

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.

My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.

I cannot say too much in praise of it. Mrs. MARY E. BRANNAN, 173 Prestman st.

Kidney Disease Cured.

Christianssburg, Va., 1881.

Suffering from kidney disease from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.

J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881.

"After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.

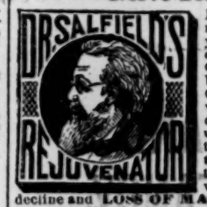

Mrs. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

PRECAUTIONS AGAINST SCARLET FEVER.

There seems to be contagion in the air, and while scarlet fever is prevalent in other places in the State we should not allow any preventive to remain untried in the effort to keep it out of Reno. The 12-year old daughter of Mr. Sterling died Friday in Winnemucca of what the doctors call *scarletina maligna*, and the disease is liable to spread. In Carson, where it prevails to an alarming extent, the *Appeal* says it began in King's Canyon and gradually crept down into the city, and at the present writing every physician in the town has as many cases as he can attend to, and new visitations of the disease are reported daily. Recent experiments made by the French Academy of Sciences have fully established the fact that a patient who is well can communicate the insiduous disease 40 days after full recovery. In many cases the disease has been spread through gross carelessness and ignorance. Some families with the disease in their homes have allowed their well children to attend school, carrying contagion from the sick chamber to the crowded school room in their clothes. The poison seems more subtle and far reaching than the contagion of small-pox, and after contagion more difficult to handle, setting at naught the skill of the best physicians. Every house should be disinfected with carbolic acid, fumes of tar or sulphur, and the out houses should be treated with chloride of lime. A bag filled with camphor hung about the necks of children and belladonna pills will assist in warding off the infection. Some signal should also be displayed from every house, that callers may not thoughtlessly transport the contagion. All these precautions are easily taken, and neglect amounts almost to murder.

The doctors say that belladona is a good preventive and it can be given to a sufficient extent with safety although it is not a safe medicine in careless hands. When the pupils of the eye begin to dilate, the medicine should be stopped.

EDITORIAL NOTES.

The great water power of this section ought to be utilized and made the scene of busy progressiveness. Nothing like manufacturing industries will build up a town and section, and capital ought to be invited here and shown the great natural resources at our command.

The London *Times* says the resignation of the French Cabinet exhibits a catastrophe which threatens the political arrangements of the country and renders the substitution of a more powerful ministry a matter of exceeding difficulty.

There is a hitch somewhere in the Mexican commercial treaty business. The treaty has been in possession of the State Department for some time, but for some unexplained reason the document has not been presented to Congress.

Albert Pell, a noted Englishman, says after extensive study that England has little to fear from the importation of American beef cattle. As this country settles up prices will be so high that they cannot be shipped at a profit.

President Arthur openly declares that unless the revenue from tariff is largely reduced in accordance with the recommendations of his message, he will call an extra session of Congress.

General Walker proposes to cut down the unprinted portion of the tenth census reports. Two hundred thousand dollars are necessary to complete the report.

The seals on Gambetta's papers have been removed. The papers contain copies of notes on the subject of the reorganization of the army.

A Georgia paper asks why negroes never commit suicide. Maybe they do.

The Gypsy and the Maori—Two Big Brutes on Their Travels—A Trio of Beats Coming West.

NEW YORK, Jan. 28.

Mace and Slade spent the day visiting personal friends. In the afternoon they had a consultation with Fox in regard to the proposition to raise the amount of stake money for the proposed Sullivan-Slade match, from $2,500 to $10,000, which latter amount Sullivan says is the lowest that will induce him to fight Slade.

Henry Bergh has written to Mayor Edson, and says: "A brace of vulgar creature—I will not compliment them by calling them brutes—arrived in our city and were received with a popular demonstration such as worth and merit has rarely had accorded it. The press, with sensational headings, told the fact in full length columns. Thus honored and encouraged, is it to be wondered at that these outlaws announce with refreshing and incredible impudence that they intend again to trample on the law of our State on Monday next. In the name of decency and order I beg your honor see to it that the ordinary requirements of civilized life be respected by the absolute prevention of that shameful contest, as well as similar ones, which law and public opinion long ago denounced." Mayor Edson says if a sparring match between Mace and Slade is in violation of law he will request the police to stop it.

CHICAGO, Jan. 28.

Jim Elliott, pugilist, Fred Plaested, oarsman, Ed. Johnson, athlete, announce their intention of starting on a starring tour across the continent to San Francisco under the management of Charles E. Prairie Fires in Texas---A Son Murders His Father.

COLORADO CITY, Jan. 28.

Prairie fires are doing damage in west and northwest Texas. Stock ranges are especially suffering. A large amount of stacked hay for feed has been destroyed. One of the fires was started by sparks from a locomotive, the other is said to have been set by malicious persons.

Robert Williams, an old negro who had a fine farm, well stocked, was murdered by his son, 16 years old, near Chappell Hill, Texas, two or three nights ago. The boy confessed the act and said he was urged to commit it by his stepmother in order that they might get possession of the property.

Beer and Round Dances--Defying the Priest.

WHEELING, W. Va., Jan. 28.

A letter of condemnation from Rev. John Gain, Bishop of Wheeling, against the Knights of St. John, a German Catholic society of this city, was read in all the Catholic churches to-day, ordering all Catholics to withdraw from the society by March 1st, under pain of excommunication. Last September the diocesan synod at a meeting in this city passed a statute forbidding round dances and the sale of beer at entertainments given by Catholic societies. The Society of St. John last Tuesday night gave a ball at which beer was sold and round dancing indulged in.

Caught by a Snow-Slide--One Man Killed.

GUNNISON, Col., Jan. 28.

Two miners—Lawler and Owen—were caught in a snow-slide near Irwin and carried several hundred yards down the side of a mountain. Owen, who had a long pole used with snow-shoes, succeeded in making a hole through the snow, thus enabling him to breath until he could extricate himself. A large party of miners late in the night found Lawler dead.

In Bath township, Clinton county, Friday night, Davis Clark, a farmer, was shot and instantly killed by his wife. The parties have lived unhappily for some years, often coming to blows. The murderess was arrested immediately afterwards.

THE HORSE IN MOTION

Stanford and His Photographer Having a Law Suit Over the Book.

NEW YORK, Jan. 28.

Muybridge, the photographer, has sued Governor Stanford for not giving him a more prominent place in his book on the "Horse in Motion." He said all the credit was given to Dr. Stillman. Stanford was interviewed in his office in the eighth story of Mills' building on Saturday. The book cost him $5,000, more than it ever paid. He said: "In 1871 I had, among other horses, a remarkably fast trotter, who used to stride 23 or 23½ feet. I became very much interested in the motion of the trotter. I was satisfied that during some part of his action he was entirely off the ground. Maybridge said no photographs of a horse in motion could be made. Several years after he said improvements had been made and more distinct pictures could be taken. He sent for a camera and a picture was taken of Occident, but it showed two feet on the ground. All this was at my expense, and he took pictures for other people with my instruments and was paid for them. Dr. Stillman was present with Maybridge and conferred with him about the book. Several horses were killed and dissected for the purpose of obtaining illustrations. Maybridge took pictures of the horses under the immediate direction of Stillman, who was writing the book.

A TERRIBLE FATE.

An Inmate of a Massachusetts Alms House Dying of Leprosy.

SALEM, Jan. 29.

Charles Derby, the alleged leper at the almshouse, is failing slowly but surely. He is kept isolated from all other inmates, and has an attendant whose duty it is to wait on him alone. One of his eyes is completely sightless and the other is gradually becoming so, everything appearing hazy or smoky. He sleeps and eats well, but his voice is hoarse and husky. He declares his disease is not leprosy at all, but of another nature contracted six or seven years ago. He says that he is himself familiar with leprosy in all its stages, having been in the hospital in California, and that in every instance it commences on the hands and little finger; that the finger loses its flexibility and becomes numb. Dr. Marshfield, a Frenchman from Worcester, has seen him and claims that the case is simply a skin humor peculiar to the natives of the South Sea Islands and is curable.

He is Not Afraid.

NEW YORK, Jan. 28.

Wm. H. Vanderbilt said to-night he would not start for the West next Wednesday, but had not abandoned his trip. When asked whether he had heard rumors that he would be kidnapped out west, he answered it would be impossible for any one to abduct him, as he could go in any direction without any one knowing five minutes in advance.

FOREIGN TELECRAPH.

The Æsthetic Apostle Has Had Enough of This Country.

LONDON, Jan. 29.

When asked yesterday if he would ever return to America Oscar Wilde replied, "No, indeed." From other sources your correspondent learned that Oscar had told the following story in regard to his adventure with a bunko man: "Just before sailing, a chap calling himself A. J. Drexell called on me and wanted me to see a picture by Millet. He enticed me into a confidence game and cleaned me of nearly $200. I also got into trouble by espousing the cause of Mrs. Langtry too freely, and made enemies by trying to bring her into a dinner party, the managers of which wrote me that the dinner would be postponed."

JOTTINGS.

Minor Occurrences in and About Town.

Mrs. Julia Prescott has an interesting notice to ladies in 50-cent column.

Scrap books at Nasby's. Thermometer at 7, 9, 11, 1 and 3—45, 49, 55, 56, 57.

Smashing buggies has been a popular pastime during the past few days. It is expensive fun.

A homographic chart of the Nevada Legislature was issued from the office of the GAZETTE yesterday.

The Christmas tree, having become sere and yellow, is now dragged into the street and left there to obstruct travel.

Leadbetter keeps all kinds of fresh and salt water fish at his market constantly. Read his notice in the 50 cent column.

A high wind for a short time to-day suggested the remark "This will blow up a storm;" but the breeze soon subsided and all was lovely again.

A tramp makes himself obnoxious at the depot by begging for a quarter "to get something to eat." It is needless to add that he hails from Carson.

Leavitt's "All Star Specialty Company" will appear at the Nevada Theater Wednesday evening. Bear it in mind. There will be two hours of solid fun.

Jamison & Co.'s great sale is one of the most noticeable trade occurrences that ever took place in Reno. Goods are going off fast, and those who wish to avail themselves of the benefit of low prices should bestir themselves.

Cheilovich & Co. of the Wine House go ahead steadily and surely. Orders come in upon them from all over the State, but they can fill twice as many, as they carry the largest stock in Nevada. Their sample room is the finest on the coast,

"Say, conductor," said an observing passenger on the Central Pacific the other day, "I notice occasionally a post at the side of the track on which are the letters D. and S. What do they mean?" "They mean Davis & Son, the popular cigar dealers of Reno, who can hand out a better cigar than anybody else."

At a dance given in North Carolina the other night one man was shot, one stabbed, two clubbed, two had bones broken, a woman an eye put out and the house burned. If they had tuned themselves with such stuff as Chase & Thyes dispense to their customers there would have been no row. They set out nothing but the best. Their stock is prime and pure, and between Chase, Thyes, and the muscular Dusy they get up the most delectable mixtures.

Some time ago the question was started as to what is the correct size for a woman's waist, and just as might have been expected, a lot of bald-headed editors are giving themselves away by talking very learnedly on the subject. Never discuss a subject of which you are ignorant. E. Meyer believes in this. He knows all about cigars, and is competent to select the best in the market. Try one of his prime Havanas.

It is comforting to read of the coolness exhibited by the officers of the ill-fated steamer Cimbria, whose only thought seems to have been in the safety of their passengers. It is also comforting to know that Everett has an immense stock of No. 1 groceries which he is selling at underpinning prices, which keeps him ahead of all competitors. Housekeepers flock to him and make money by trading there. He has everything in the grocery line, at much less rates than anybody else can possibly sell at.

Mary Anderson, the actress, was, it is said, really "mashed" on Oscar Wilde. They met at a fashionable reception in New York and she became a victim. Mary met Oscar by appointment at Long Branch, and spent one whole day wandering up and down the pebbly strand with him. If Mary could only drop into Levy & Bro.'s store on Virginia street she would forget all about Oscar. There are hundreds of things to attract a lady's attention, and the great clearance sale now going on will bring in large crowds, as first-class goods are being sold for cost and less. Now is your time, ladies.

Jacobs the Tailor.

S. Jacobs, the Virginia street tailor, has rented the store now occupied by Mrs. Julia Prescott and will take out the partition between the two rooms and put in a large stock of tailoring goods in the Spring. Mr. Jacobs will take possession of his new place on March 1st. In the mean time, he is prepared to make up suits in the latest styles at reasonable rates.

An Unsightly Ruin.

There seems to be a hitch in the matter of commencing work on the Coats Tavern. It was said more than a month ago that the house was to be put in habitable condition at once, but so far no move to that end has been made. It still remains an unsightly ruin.

WHAT WE EAT.

Good Food Spoiled by Ignorant Cooks.

Probably no town of its size in the country consumes so much fish as Reno. Tons of trout from Pyramid and Mud lakes and from the Truckee river are sold by local dealers every month, besides no end of fish from the other side of the mountains—salmon, sturgeon, crabs, shrimps, smelt, herring, tom-cod, flounders and rock-cod. If fish is a brain-producer, Reno ought to raise a regiment of intellectual giants in this generation. As a general thing people eat too much meat, which few cooks can properly prepare for the table. Folks go to market and call for the best cut of meat in the shop, and get it, and when they have spoiled it in cooking they curse the butcher, while they themselves are to blame. The person who is detected in the reprehensible act of "frying" a steak should be promptly taken out and hung to the nearest tree. "There's death in the frying-pan" is an old saying, and it is as true as certified writ. Not one cook in a hundred has the gloomiest idea of properly preparing food. Potatoes, that should be white, mealy and aerated like a cotton-boll, are placed upon the table more like a half-petrified poultice than anything else; when "fried" they are soddened with slush and are about as digestible as a greased coat-button. Beef that should be as tender and succulent as a Saddle-rock oyster is tougher than a tramp's conscience. Besides, it is safe to say that one-half the meat purchased is criminally wasted, because after being subjected to the process called "cooking" it becomes repulsive to most stomachs. Most professional cooks are ignorant, illiterate men who know nothing about the "chemistry of grub," and are as likely to spit in a fryin pan to see if the fat is hot as they are to test it in any other manner. The Legislature ought to pass a law that all cooks in public houses should pass an examination and if qualified for the profession receive a diploma and license permitting them to practice, the same as a physician or lawyer. The people's stomach ought to be protected. As things are now it is at the mercy of a lot of ignoramuses whose knowledge of wholesome cookery is limited to building fires. They foster an epidemic of dyspepsia and indigestion, which will breed a puny, narrow-chested race.

WORTH TRYING.

How to Avoid Smoking's Bad Effects.

An English workman, just past the middle age, found that his pipe, which for many years had been a great comfort to him, was beginning to seriously affect his nerves. Before giving it up, however, he determined to find out if there was no way by which he might continue to smoke without feeling its effects to an injurious extent. He accordingly wrote to a medical journal, and was recommended to fill the bowl of the pipe one-third full of table salt and press the tobacco hard down upon it, as in ordinary smoking. The result was very satisfactory. During the process of smoking the salt solidifies, while remaining porous, and when the hardened lump is removed at the end of a day's smoking it is found to have absorbed so much of the oil of tobacco as to be deeply colored. The salt should be renewed daily. Another way is to fill the pipe full of common tobacco and lay it on a shelf out of reach of fire.

Frightened to Death.

News comes from Livingston, M. T., of a singular death. The next door neighbors of a respectable white woman were negro prostitutes. In accordance with the custom of such places, a row began the other night, during the progress of which pistol shots were fired. The lady became greatly frightened, and her terror was increased by the appearance of the Committee of Safety, who threatened to dispose summarily of the shootist. No lynching was done, but the woman was so badly scared that she expired in a short time.

The New Bonanza.

The new ore body in the Hale & Norcross is attracting much notice from San Francisco stock sharps. Sunday morning's express brought from that city Capt. John Kelly, Morris Hofliuch, Geo. Ives and several more speculators of lesser note. Pine street capital stands ready to discount the Hale & Norcross prospect or gore the life out of what seems to warrant a hope for the better, as best suits the hand of speculators.

En Route to San Francisco.

Sheriff Leakey of Lassen county, Cal., came in from Susanville last night with Joe Harold, the man who had a difficulty with E. V. Spencer at Susanville a few days ago. Harold was convicted of an assault with intent to do great bodily harm. He will serve one and a half years at San Quentin to pay for the fun he had.

IN THE LION'S DEN.

A Bold Thief Robs a Jailer and Gets Away With the Keys of the Prison.

Yesterday morning officer Mershon arrested a man for being a little too fresh and making various threats. With the assistance of Miles Wing the fresh individual was taken to the county jail. Upon arriving at the bastile they found the door open, whereat they were somewhat astonished, for they realized that a jail with open doors is an anomaly. They aroused George Humphreys, the jailer, and inquired, "Why is this thus? Do prisoners flit in and out according to the promptings of their own sweet will, while we taxpayers are grievously cinched for the wherewith to procure ponderous bolts and keys?"

"Cheese it, you unsophisticated night-prowler," remarked Miles. "Don't you observe that the unsuspecting custodian of our criminal archives has been robbed — that some cunning marauder has gone plumb through him, as it were, and left him without that bifurcated garment which should conceal those billiard-cue shanks of his that now shiver in the mountain air?"

"Yes," said Humphreys, "I've been undone and laid wide open. My breeches are gone with five dollars in the pockets, and my six-shooter is on the same trail; likewise the keys of the whole shebang. Behold, I am wrecked and stranded upon the rocks of Emmitt's wrath."

Then he tried the safe, to see if the robber had made a clean job of it, but it was all right. Somebody had crawled in through an open window, and after stealing the jailer's trowsers, containing five dollars, his revolver and the key to the prison, had undone the inner fastening of the door and walked off as unmolested as if he were Emmitt himself. It is what might be called a "good joke on Snyder." The men who are bold enough to invade the gloomy precincts of a jail live very far apart, and knowing none bolder than "Sacramento Bill," the officers began search for that individual, and in the afternoon arrested him in Douglas alley.

THE BANK INDICTMENTS.

They Are Held to be Binding Decisions of the Attorneys.

Court opened this morning and Judge King immediately moved that the indictments against L. L. Crockett and J. H. Kinkead be quashed, because the indictment on the back read "Second Judicial District," instead of "Seventh," as it now is. He held that it rendered the indictment of no effect. District Attorney Alexander read a law allowing an indictment to be amended in such cases. General Clarke argued that the indictment, before it could be said to be legally brought, must be received in open court, in the presence of the Grand Jury and filed. In filing this indictment the Clerk endorsed it incorrectly and there was nothing to show in this court that there was any indictment against the parties. He held that as the Grand Jury was discharged and the amendment could not be made in their presence that none could be made. Alexander read laws To show that no indictment is void on account of a mere matter of form, and this he held to be simply a clerical error. Judge Boardman ruled that the clerk, in simply indorsing on the back and making an error had no force and denied the motion. The defense demurred, first for Crockett then for Kinkead, on the ground that it is not shown that the facts constitute a public offense, and that it is not alleged that Crockett was a servant, officer or employee; that more than one offense is charged, i. e., embezzlement, larceny, etc. The demurrers will be ruled on next Wednesday.

How Cold Affects Cars.

Railroad men say that during the recent cold spell if a train was permitted to stand on the track for 20 minutes it was almost impossible to start it again, the *Silver State* says. The journals froze in the boxes, and it frequently took two or three locomotives to move an emigrant train, as the wheels would not revolve. This occurs only when the mercury is away below zero.

Going to Try It Again.

The Susanville *Advocate* says: Henry Bereman has ordered lumber for the rebuilding of the buildings lost by the fire. We hope that he will be able to erect as substantial and sightly buildings as those recently burned. He has been very unfortunate, but he seems to have the nerve to battle against fate, and we hope he may be rewarded as he deserves.

Information Wanted.

There is a large quantity of land in Sierra Valley suitable for cultivation and the raising of grain if irrigation facilities could be had. Will somebody who is posted on this subject please communicate some scheme by which this land may be put to some profitable use? The publication of such an article, says the *Leader*, might be of interest to the public.

REBELLIOUS BOVINES.

Something of Interest to Nevada Dairymen.

Haggin & Carr in Kern county, Cal., have a novel way of managing unruly cows at their dairy. A corral is made triangular in shape, and in one corner is an opening which leads into a long passageway, about 112 feet in length, two and a half feet wide, and high enough to admit the tallest animal. The passage, or hall, has a gate at either end and is divided off into sixteen stalls of seven feet each by inserting bars across it. The cows are driven from the triangular corral into this hall, the bars having of course first been removed, and when full the bars are inserted in their proper place, each cow being confined in a separate stall. Each has a separate gate, about two feet square, directly under the animal's udder. The milker opens this gate, seats himself and milks, after which he closes the gate and proceeds to the next until all have been milked. The front gate leading into the pasture is then opened and the bars removed and the cows allowed to pass on into the pasture; after which the gate is closed and the stalls again filled from the corral, and so on until all have been milked. The man in charge of the dairy says the plan works to perfection. Every cow on coming in must first pass through this lane. After becoming docile they are turned into the larger corral with the gentle stock. But if they prove intractable they are given two calves to support, and continued in the stalls till they accept them, and are then turned into the pasture. Heifers are broken without the slightest trouble. They learn to stand from the first, and being subject to no ill treatment, soon lose all fear of man.

Sam Wagner is the oldest attache of the Legislature. The homographic chart reads: "Sam Wagner, porter, age 79, bootblack by profession." Old Sam is the proudest man about the State House.

F. S. Sanders, an old-time amalgamator from Dayton, is stopping at the Pyramid House. About seven years ago a heavy muller fell on his leg and scraped the bone from the knee to the ankle, the wound degenerating into a painful chronic ulcer. The climate of Reno is effecting a marked improvement.

If there are any irregularities in the affairs of the office, they are of long standing, and not the work of the present incumbents.

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada send greeting to Jemima Jones as plaintiff in the District Court of the Second Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons (exclusive of the day of service). If served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant intermarried at Mono county, California, on or about July 9th, A. D. 1873, and ever since have been and now are husband and wife; that on or about Sept. 9th, A.D. 1875, you, the defendant, wilfully deserted and abandoned plaintiff, and ever since have so continued, and now do so continue to desert, abandon and live apart from plaintiff, against her will, wish or consent; that for more than a year next preceeding the commencement of this action you, the defendant, have failed and neglected, and now fail and neglect to provide for plaintiff the common necessaries of life, which neglect is and was not the result of poverty on your part which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage, and no common property. Plaintiff prays to be restored to her maiden name, and for costs, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court, at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I, P. B. Comstock, have hereunto set my hand and affixed the seal of said Court this sixth day of December, A. D. 1878.

P. B. COMSTOCK,
(SEAL.) Clerk of the District Court of the Second Judicial District, Nevada, in and for Washoe county.
By S. A. MANN, Deputy Clerk. 29n30d

Sheriff's Sale.

BY VIRTUE OF AN EXECUTION issued out of the Seventh (late Second) Judicial District Court of the State of Nevada, in and for Washoe county, in the suit of Simon Hodgdon, plaintiff, against Levi T. Heath, defendant, the judgment in which case was revived on the petition and for the use and benefit of J. P. Foulks and H. W. Roberts, duly attested on the 6th day of January, 1883, and to me directed and delivered on that day, commanding me to make, out of the personal property of said Levi T.
